ENGRAVED PLASTIC PG.1

ENGRAVED PLASTIC SIGNS AND NAMEPLATES

Lamacoid engravable plastic is 1/16 inch thick and available in a number of standard dual colour formats. Designed for both indoor and outdoor applications in any custom shape or size up to 12" x 24". In addition to being used for signs and nameplates it can also be used to create custom labels and tags such as electrical panel identification, door number plates, legend plates, HVAC tags or any other application you may require. Lamacoid Engravable Plastic can be engraved with your specific text, logo and can include a border if required. The edges can be bevelled and can be customized with holes or supplied with self adhesive tape on the back.
