

REINER

jetStamp 790MP & 792MP

Gain speed & efficiency with the Reiner JetStamp MP Series. The 790MP (rechargeable battery option) & 792MP (plugin option) handheld inkjet printers are compact and flexible with the ability to print on virtually any absorbent and non-absorbent surface. The only handheld printers with the ability to print on to small, curved, & uneven packaging. Print one or two lines of customizable alphanumeric text on plastic, glass, metal, coated cardboard, etc. Endless industry applications: food & beverage, cannabis, health & beauty, cosmetics, contract packaging, pharmaceutical, part marking, to name a few. This rock star will keep you on track with compliance. Intuitive operation, zero-maintenance cartridge based system, and Reiner's industry unique self-traversing printhead enables you to hit the same spot every time. Accelerate your production process with the Jetstamp 790MP or 792MP - the preferred choice among industry experts.

jetStamp 790MP – Rechargeable battery powered model. 4 AAA. Rechargeable batteries only.

jetStamp 792MP – Permanent power plugin model. Must be plugged in to an outlet at all time.
