HEWCO® IPPC MARKING SYSTEMS

Kits and Devices for pallet, crate and dunnage marking

The IPPC mark indicates that the pallet, crate or dunnage material that it is marked on has met the ISPM 15 criteria under the IPPC (International Plant Protection Convention), i.e. the pallet, crate or dunnage material has been treated against invasive insects or plant diseases and is safe for use in international shipping.

Hewitt's offers solutions for marking pallets, crates and dunnage materials. Whether your need is for a Stencil, Rubber Stamp, in-line contact or non-contact Printer, Ink Jet or Branding Iron option, we will work with you to provide the best solution to meet your marking needs efficiently and cost effectively.

Hewitt's has provided Marking Products to business and Industry since 1898. We pride ourselves in our attention to detail, the quality of our products and customer satisfaction. Please review this two page pamphlet to see how we can help you save time and money with the marking of your IPPC compliant products.

Hewitt's comprehensive line of IPPC Marking Systems include Aluminum and Mylar Stencils, Propane and Electric Branding Irons, Industrial Rubber Grade Stamps, Hand Rollers with continuous rubber ring dies, Reciprocating Printers, Indexing and Non-Indexing Contact Print Systems and Non-Contact Ink Jet Print Systems.

We welcome any and all inquiries regarding our Marking Products and look forward to working with you and your company.
